

It's Our Time

Lovehammers

Tonight we're gonna break the chains, wash away our yesterday.
Tonight we're gonna ride the storm, to find out what we been waiting for.

Just let go, all our dreams will awake.
The world we know, say goodbye.

It's our time
The stars have aligned and the future is shining so bright, tonight...

Tonight I'm giving all I can, flying high like superman...
To knowing when it just feels right... I wanna be with you tonight.

All your tears...
I will wash 'em away, leave your fears, far behind.

It's our time
The stars have aligned and the future is shining so bright, tonight...

(oh, oh, oh, oh, oh, oh, oh, oh, oh, oh)

It's our time
The stars have aligned and the future is shining so bright, tonight...
