

# Neverfall

Lovehammers

Looking back and moving on  
We'll find a place where we belong  
And hey hey, start a revolution

Blow a kiss and slam the door  
'Cause we got more worth living for  
Baby, it's my evolution

We'll never fade away  
We'll never lose you  
I got a lot to say  
And listen to me scream it out  
No we'll never, no we'll never fall  
down  
Like we're supposed to

Just remember: stand together strong  
Let it burn inside you

The house we built  
We watched it fall  
We'll rise again, we'll have it all  
One day, no confusion  
Life is not a mystery  
To make it real you just believe...  
Hey, hey ...more than illusion

We'll never fade away  
We'll never lose you  
We've got a lot to say  
And listen to me scream it out  
No we'll never, no we'll never fall  
down  
Like we're supposed to

Just remember: stand together strong  
Let it burn inside you

The house we built  
We watched it fall  
We'll rise again, we'll have it all  
Now it's time to come alive  
Expose the scars you try and hide  
Open up your mouth and scream  
Live a life that sets you free  
Never fall, never fade  
Together we will never break

No we'll never, no we'll never fall  
down  
Like we're supposed to

Just remember: stand together strong  
Let it burn inside you

The house we built  
We watched it fall

We'll rise again, we'll have it all  
One day  
And start a revolution

The house we built  
We watched it fall  
We'll rise again, we'll have it all  
One day (no we'll never fall)  
And start a revolution
