

Set Fire

Lovehammers

Gotta a lot of fight
Gotta a lot of fight left in me
Don't underestimate me
Watch it cause I might
Shatter your bright fantasy
I will not stop so easily
And you will never win
You'll see my face again
My eyes on the prize - yeah
I'm a man before my time

I set fire in the pouring rain
Yet time moves on, but the scars remain
For all the love and all the pain
In memory of you

Blinded by the light
Blinded by the light shine on me
Don't mess with my destiny
Fighting for my life
And for what is right, follow me
I will stand strong cause I believe
If you wanna quit, I refuse to give up
I never let up, even when I'm winning

I set fire in the pouring rain
Yet time moves on but the scars remain
For all the love and all the pain
In memory of you

I will not fail - I will not fade
I will never turn away
All my life, live for today
In memory of you

I'll try harder - I'll reach farther
Till I, I find a way
I'll burn brighter - I'll be smarter
Till I, I'll find a way
I'm coming home, coming home

Gotta a lot of fight, gotta a lot of fight left

I set fire in the pouring rain
Yet time moves on but the scars remain
For all the love and all the pain
In memory of you

I will not fail - I will not fade
I will never turn away
All my life, live for today
In memory of you

Memory of you
Memory of you
For all the love and all the pain
In memory of you

Gotta a lot of fight, gotta a lot of fight left
Gotta a lot of fight, gotta a lot of fight left
All the love but the scars remain
In memory of you
