The lightly applied pink lipstick, my lies my lies
This unfamiliar dress, will it look pretty? My lies my lies
It's a style I put together, my lies my lies
Don't pretend not to notice, my lies my lies

Slowly match your steps
With mine like a song
I like that place far far away, with no one around
Let's go far away so no one will notice us
Farther, farther, if it's with you, just us two

The stars haven't even come out yet, don't rush
Just looking at my watch makes my heart pound
Wait, the darkness will hide us
Then smile brightly, as much as we waited

Slowly match your steps
With mine like a song
I like that place far far away, with no one around
Let's go far away so no one will notice us
Farther, farther, if it's with you, just us two

It's not great but I packed our lunch, my lies my lies
The last train is leaving, my lies my lies
Let's go to a strange place, my lies my lies
Let's forget everything, my lies my lies

Kissing, kissing you baby is like the wind singing
Let's dance together as if time has stopped
If you take my heart while having me in your arms
I won't know what to do

Slowly match your steps
With mine like a song
I like that place far far away, with no one around
Let's go far away so no one will notice us
Farther, farther, if it's with you, just us two

When did it become so natural?
We came to resemble each other,
Even now as we're walking together
Everything seems like a dream, I don't want to awake

Slowly match your steps
With mine like a song
I like that place far far away, with no one around
Let's go far away so no one will notice us
Farther, farther, if it's with you, just us two
