In the place where memories rest  
Even in the warmth left at the tip of my fingers  
You are there, you are there, Your scent, your face

Please look at me, look at me, look at me  
I feel you, I feel you, I feel you like this  
I tried to hold onto the way you speak, your smile  
I tried to hold onto you

In the place we were together  
In the moments that I started to resemble you  
I was so happy just by walking in the rain with you  
But you're not here, you're not here  
How can I live as I erase you?  
In the times we walked together  
In the places where the memories  
And lingering attachments were made  
I'm standing there because I miss you so much

Look at me, look at me, look at me  
I feel you, I feel you, I feel you like this  
After barely resembling the way you speak, your smile  
After barely resembling you

In the place we were together  
In the moments that I started to resemble you  
I was so happy just by walking in the rain with you  
But you're not here, you're not here  
How can I live as I erase you?  
I miss you so much

I can't erase your name that was barely permitted to me  
My name that only you called out is asleep right here

In the place we were together

In the moments that I started to resemble you  
I was so happy even though I couldn't sleep at night

But you're not here, you're not here  
How can I live as I empty you out?
