 Shining Star

Where did you come from?
Why do you keep making my heart flutter?
This morning feels like a new gift

Stop right there
You're like a shining star

From far away, I see the light
I rub my eyes and look again but it's still shining

This mysterious feeling, this story that only I know
The secret whisper that was hidden

Soft and squishy
I like this feeling
Heart is pounding
I'm running out of breath

No words can express
How I feel

You're like a shining star
A star that shines on me every day
You're the sun during the day, the moon at night

You came to me, shooting star
I can't lose this moment
I'll show you myself
To you, to you, to you
In my heart, a shining star

A melody whispered in my ears
I wanna hear that voice more

A scent comes through the nice breeze
Why do you keep making my heart flutter?

Soft and squishy
I like this feeling

Heart is pounding
I'm running out of breath

What magic did you put on me?
I can only think of you

You're like a shining star
A star that shines on me every day
You're the sun during the day, the moon at night

You came to me, shooting star
I can't lose this moment
I'll show you myself
To you, to you, to you
In my heart, a shining star

I like you more than any other sweet candy
More than jelly, more than chocolate
I like you the best
I'll appear before you,
Be excited
Wait for me a little more

You're like a shining star
Have a little more strength
I want you to find out how I feel

You came to me, shooting star
I can't lose this moment
I'll show you myself
To you, to you, to you
In my heart, a shining star
