

## Bullet In The Chamber

Loverboy

Red light--black lace  
It's gonna blow up right in your face  
You take the heat, you pay the price  
Keep on fingering the merchandise

Squeeze slow, steady all the way  
Breathe slowly while you're taking your aim  
It's now or never, it's in your sights  
Oh--is it safe to say

Do yourself a favor--I'm like a bullet in the chamber  
Why don't you do us both a favor, I'm like a bullet in the chamber  
I'm cold steel--hot lead  
I'm getting in way over my head  
I'm wound up--I'm ready to go  
Your attitude tells me what I need to know  
So you, you say you like it rough  
And you tell me that you want it that way  
Do you really think you're tough enough?  
Oh, be careful what you say

Do yourself a favor--I'm like a bullet in the chamber  
Why don't you do us both a favor and put a bullet in the chamber

Do yourself a favor--I'm like a bullet in the chamber  
Why don't you do us both a favor and put a bullet in the chamber

Do yourself a favor--I'm like a bullet in the chamber  
Why don't you do us both a favor and put a bullet in the chamber
