

# Chance Of A Lifetime

Loverboy

You know what you came here for  
You're lookin' for an open door  
I know it means a lot to you  
I'm going through the same thing too  
Tell me do you think it's right  
To count the days and count the nights  
Here's the way it's gonna be  
I'll take you, you take me

It's the chance of a lifetime  
And tonight is the right time  
It's the chance of a lifetime  
Don't you let it slip away

Now don't you turn and look away  
Or you're the one that's gonna say  
I had it right in front of me  
But I'm the one who didn't see  
You think about it yesterday  
Before you know it, it's today  
You may not get another chance  
Can't find love, take romance

It's the chance of a lifetime  
And tonight is the right time  
It's the chance of a lifetime  
Don't you let it slip away

Ooh, it takes two  
And baby me and you

Now I know what you came here for  
You're lookin' for an open door  
I know it means a lot to you  
I'm going through the same thing, too  
Tell me, do you think it's right  
To count the days and count the nights  
And now here's the way it's gonna be  
I'll take you, you take me

It's the chance of a lifetime  
And tonight is the right time  
It's the chance of a lifetime  
Don't you let it slip away

It's the chance of a lifetime  
And tonight is the right time  
It's the chance of a lifetime  
Don't you let it slip away

It's the chance of a lifetime  
And tonight is the right time  
It's the chance of a lifetime  
Don't you let it slip away
