

Countin' the Nights

Loverboy

You told me that you loved me, baby
You said it is for real
Now I hear you've been stepping out
You don't care how I feel

You're not looking for sympathy
It's no surprise to me
Not gonna play the fool this time
You wait and see

Open up your eyes
Take a look around
Do us both a favor
Split town

I've been counting the nights
Now I'm counting the days
I've been counting the nights
Till I'm through with you

Don't think that I love you, honey
'Cause it's a two-way street
You wanna get what's coming to you
You're in too deep

Don't wanna hear your alibis
Don't wanna see your pretty face
I wanna see you walk out of here
Gone without a trace

Open up your eyes
Take a look around
Do us both a favor
Split town

I've been counting the nights
Now I'm counting the days
I've been counting the nights
Till I'm through with you

Counting the nights
Counting the nights

Open up your eyes
Take a look around
Do us both a favor
Split town

I've been counting the nights
Now I'm counting the days
Counting the nights
Till I'm through with you
