## **Passion Pit**

I'll try anything once Cause that's my choice Ain't got time for jokin' Getting straight to the point Drive a hard, hard bargain You get closer to the bone If you're thinkin' what I'm thinkin' You don't wanna be alone

I'm in heaven when I'm lovin' you
I'm in heaven tell you what we'll do

Down in the passion pit Where everyone gets a hit Down in the passion pit Where everything seems to fit

You know the tough get goin' When the goin' gets tough I'm looking for some lovin', can't seem to get enough Too much temptation It's driven me mad Well you been good baby I'll be bad

I'm in heaven when I'm lovin' you
I'm in heaven tell you what we'll do

Down in the passion pit Where everyone gets a hit Down in the passion pit Where everything seems to fit

Down in the passion pit Where everyone gets a hit Down in the passion pit Where everything seems to fit

Down in the passion pit The passion pit Down in the passion pit Get a hit, get a hit
