

Watch Out

Loverboy

There's a new love in your life, I see it in your smile
There's a new love in your life, I've known it for awhile

You should have told me from the start
But oh no, you had to leave me in the dark
And now you better watch out
So now better watch out
You better watch out for me, yeah

Now there's a new love in my life
Two can play that game
There's a new love in my life
Now you got the same
OOOOHHHHHH

I'm saying oohwoaooooo, you better watch out
Woaooooo, woaooooo, you better watch out now

You should have told me from the start
But oh no, you had to leave me in the dark
And now you better watch out
So now better watch out
You better watch out for me, yeah

You should have told me from the start
But oh no, you had to leave me in the dark
And now you better watch out
So now better watch out
You better watch out for me, yeah

Now look around baby
You better watch out for me
I'm gonna drive you crazy
You better watch out for me
Cause two can play that game
You better watch out for me
And I'll be doing the same
