

Miracle

Lovex

Your talk is full of flames but you
walk on water, water
though your thoughts are brave you
seek a shelter, shelter

Soon the stars will line up,
and light the
way and it will guide us to find the
truth that lives inside us, and brighten
the shadows of doubt

sing, sing, sing your melody
don't dance, dance with the enemy
if you want it, you can get it now
and if you need me, i'll be there to

Sing, sing along with your melody
I won't dance, dance with the enemy
if you want it, I help you get it now
when you need me, I'll be there for you

Seize the day before the moment is
over, over
let the weight fall from your
shoulders, shoulders

Don't wait up
for a miracle
don't hold back
you're a miracle
