

# Turn

Lovex

I lost track of good sense 'cause I never  
Learned when to stop

And somewhere along the way I dragged you  
Into this mess

I chose to fight but I lost  
I ruined all and you paid the cost  
But I hope that you would

Turn and stay with me  
I know you hate me now  
But now I need you to

Turn and stay with me  
Through these tormenting days  
That only you can alleviate

I did everything I feared I would do  
When the pressure cracked me

Some say it's hate, some say it's fate  
That put those words in my mouth as I raged  
But I hope that you would

Turn and stay with me  
I know you hate me now  
But now I need you to

Turn and stay with me  
Through these tormenting days  
That only you can alleviate

And I'm so sorry  
You have to watch me crawl  
But for once in my life  
I know I'm too weak to survive

I'm closer now  
Surrender is near  
Pull me to you, pull me up  
I'm closer now  
Surrender is near  
Pull me to you

Turn and stay with me  
I know you hate me now  
But now I need you to

Turn and stay with me  
Through these tormenting days  
That only you can alleviate

And I'm so sorry  
You have to watch me crawl  
But for once in my life  
I know I'm too weak to survive
