

# Hesitate

## Low Level Flight

Calling out I get no answer,  
calling out I get no where.  
I know this thing, will never happen to me  
oh no yes it will.  
I know this thing will never be.

I gotta save, save, save my soul on the way down.  
I gotta save, save, save my soul on the way down.

Hesitate on the day that I met you  
how I hate all the ways that I left you.  
All the times that I said I regret you,  
I never meant a single one.

I need help, I think I'm losing.  
I need help, I think I'm done.  
I'm in hell when I not with you, oh no can't you see  
it's true.  
I'm in hell I think you won.

I gotta save, save, save my soul on the way down.  
I gotta save, save, save my soul on the way down.

Hesitate on the day that I met you  
how I hate all the ways that I left you.  
All the times that I said I regret you,  
I never meant a single one.

All the tears and the pain that I gave you.  
All the ways I said that I hate you.  
I never meant a single one.

Your a nice girl  
You should know that,  
every time it comes to this.  
Your a nice girl  
and i know thats what I miss.

Hesitate on the day that I met you  
how I hate all the ways that I left you.  
All the times that I said I regret you,  
I never meant a single one.

Hesitate on the day that I met you  
how I hate all the ways that I left you.  
All the times that I said I regret  
I never meant a single one.

All the tears and the pain I gave you.  
All the ways I said that I hate you.  
All the times I said I regret  
I never meant a single one.
