Turnaround

Low Level Flight

Growing up with you was torture
watching all the things you did
now it seems our life is over
even though were still just kids

You saw the look on my face
You saw the way I have changed
Now Im telling you straight

Turnaround, don't follow the others
Turnaround you know were still brothers
Turnaround and walk away from this life of pain

So many times I've seen what you do
And all alone it's hard to cope
So many time I barely knew you
But now I know that there's still hope

You saw the look on my face
You saw the way I have changed
Now Im telling you straight

Turnaround, don't follow the others
Turnaround you know were still brothers
Turnaround and walk away from this life of pain

Walk away, Turnaround and Run
Dont listen to anyone
Walk away, Turnaround

Turnaround, don't follow the others
Turnaround you know were still brothers
Turnaround and walk away from this life of pain

I know that this is only the begining
Don't you remember you and I are winning
I know that this is only the begining
Don't you remember you and I are winning
