

Here She Comes

Low Millions

I can taste you on my tongue, I can still feel what my hands have done, I got you on my mind, more than anything or anyone.

And what we have is a connection, we got front row seats to each others affection, you're such a thirsty rose, I can still see you when my eyes are closed. My love glows when I'm with her, and she flows like a river.

My love's every single song on the radio, my love's every pretty face on video, my love my love, I'm seeing her in everyone, here she comes.

And when I don't know where you are, it's like I see you in every passing car, I can see you in a crowd, or I can see you when I'm looking at the clouds. My love glows when I'm with her, and she flows like a river.

My love's every single song on the radio, my love's every pretty face on video, my love my love, I'm seeing her in everyone, here she comes.

And she shines, and the stars look up to her, and she shines, and she shimmers.

My love's every single song on the radio, my love's every pretty face on video, my love is a thousand pages of beauty, and here she comes.

My love's every single song on the radio, my love's every pretty face on video, my love my love, I'm seeing her in everyone, here she comes.

Here comes my love.
