

Nurse me back to health  
I believe I was poisoned  
I think I've been poisoned  
Cause the holes drilled in my head  
They keep me from wandering  
You keep me from wandering

Cause I was a dreamer  
A dandelion prophet  
Wherever the wind blows  
Well, that's where I'm headed

Nothing that we speak bends  
When we are sleeping  
When we're both sleeping  
Cause the holes drill in my head  
You keep me from wandering

Cause I was a dreamer  
A dandelion prophet  
Wherever the wind blows  
Well, that's where I'm headed

Cause I was a dreamer  
A dandelion prophet  
Wherever the wind blows  
Well, that's where I'm headed
