

# I'll Make you Feel

Low Roar

I'll make you feel  
I'll make you fly  
On top of the world  
Smothered in light

What can you do?  
But what could you not?  
Your self confidence  
Is it something you bought?

Let me in close  
I'm playing my cards  
I'm making my way  
Into your heart

I'll burn your house  
Take back what is mine  
Without thinking twice  
Without thinking once

I'll make you feel  
I'll make you fly  
On top of the world  
Smothered in light
