

I'll Make you Feel

Low Roar

I'll make you feel
I'll make you fly
On top of the world
Smothered in light

What can you do?
But what could you not?
Your self confidence
Is it something you bought?

Let me in close
I'm playing my cards
I'm making my way
Into your heart

I'll burn your house
Take back what is mine
Without thinking twice
Without thinking once

I'll make you feel
I'll make you fly
On top of the world
Smothered in light
