

Nobody else

Low Roar

Under the rug
Old shadows inside
Wait for their moment

They plan their surprise
A confetti supply
When I'm feeling feeble

I swear that it won't happen again
There's nobody else
There's nobody else
There's nobody else
There's nobody else
I swear that it won't happen again

We've become lost
Shine lights in the past
No sign of a way out

Our cryptic love
With time it gets worse
It builds up behind us

I swear that it won't happen again
There's nobody else
There's nobody else
There's nobody else
There's nobody else
There's nobody else
There's nobody else
I swear that it won't happen again
