

Slow Down

Low Roar

I'm a man of my word I could say
Probably maybe not
What seemed close now seems so far away
You're a blurry spot

The audience doesn't stare at me the same way anymore
I'm a bastard a self centered JIM
I'm a loaded gun
I won't hurt anyone

Well, I need to slow down
Well, I need to slow, slow down
Made a promise and I lost
Had a plan that was a bust
Am I coming in clear?
Draw up a plot to get me out of here

Take this pill it will calm all your nerves
I swear, you'll be safe
Now look around before we fade away like a bell that's rung
Like a setting sun

Well, I need to slow down
Well, I need to slow, slow down
Made a promise and I lost
Had a plan that was a bust
Am I coming in clear?
Draw up a plot to get me out of here

Well, I need to slow down
Well, I need to slow, slow down
Made a promise and I lost
Had a plan that was a bust
Am I coming in clear?
Draw up a plot to get me out of here
