Fallopian Hoe Down!

Lower Definition

Day after day in this weak man's life,
It's getting harder just to sleep.
Prayer after prayer there's nothing to this life
but infomercials and Tylenol PM.

I'll never sleep again and you'll never care.
I lie awake at night and you're never there.
I'll never sleep again and you'll never care.
I die awake at night and you're never there.

I pulled away when you tried. 6AM apocalyptic skies.
Five frozen fingers and popping jaws, miss thirty four paws.
Insomnia's love story is such a shitty read,
tear out every fucking page.
Who do I have to kill for some rest for the rest of my life?

Most everything is the same just a few things are out of place.
For the first time we're walking together as one.
The best part about this dream is I know that I'm asleep.
The best part about this dream is that I can't feel a fucking t
hing.

All I wanted was for you to...
All I wanted was for you to hold my hand.
I look down just to see an empty palm,
wishing you were here with me.
I look forward to the day that I forget what it's like to dream
.
