

# Galapagos

Lower Dens

Let me hold you up  
To the light  
My love  
If we see your heart  
Really pumping  
Well, alright

You belong here

If you feel distressed  
That's ok, too  
My love

We want you here

On and on the volcanic island archipelago  
Lifts itself up out of the ocean, fire from the earth below

Let me take you up  
To the light  
If we see your heart  
Then we know it's real  
You belong here

On and on the volcanic island archipelago  
Lifts itself up out of the ocean, fire from below

On and on the volcanic island archipelago  
Lifts itself up out of the water, fire from the earth below
