

Simple Life

Lower Dens

Coming to underwater
Never enough time with you
Rip tide pulls me back down
I'm irrecoverable

No such thing as a simple life

Kill me or break me out
Break me down, bring me to the edge of death
Edge of life, life and death are one and the same
As we step to our little dance
And chain ourselves to circumstances
I needa know if we ever had a chance

I saw you through a window
Angel eyes and tortured smile
You know there's more to life
So why can't I reach you

It's the end of taking time
No such thing as a simple life

Kill me or break me out
Break me down, bring me to the edge of death
Edge of life, life and death are one and the same
As we step to our little dance
And chain ourselves to circumstances
I needa know if we ever had a chance

Fuck me and wear me out
Wear me down, bring me to the edge of death
Edge of life, life and death are one and the same
Now let's begin our little dance
And chain ourselves to circumstances
Tell me did we ever have a chance
