

# Merry Go

Lowlife

I'm feeling nauseous, cautious  
Spinning round in circles  
Whirlpools, new rules  
Falling over hurdles  
Stuck on this merry go round  
Its getting faster  
Feet ain't touching the ground  
Stop my laughter  
I can be the clown on a broken bike  
Riding 'round in circles all day and night  
But I'm alright right now  
'Cause this rides alright with me

'Cause I ride merry go  
Lost in a feeling  
It's like round and round we go  
'Till we fall down  
Coloured pills and daffodils  
Are all that I'm seeing  
Now that I ride merry go  
'Till we fall down

Oh, so what we doing today  
Gods got me wishing we could fly away  
What's the shit we always used to say  
We might grow up, but nah, we won't change  
I was running for the moon, but I tripped and I fell  
I was running late for class, but was saved by the bell  
Always told all my teachers, it felt more like a cell  
'And if you're gonna keep this up, you're gonna end up in jail

I ride merry go  
Lost in a feeling  
It's like round and round we go  
'Till we fall down  
Coloured pills and daffodils  
Are all that I'm seeing  
Now that I ride merry go  
'Till we fall down

I ride merry go  
Lost in a feeling  
It's like round and round we go  
'Till we fall down  
Coloured pills and daffodils  
Are all that I'm seeing  
Now that I ride merry go  
'Till we fall down
