

## Yesterday's Gone

Loyle Carner

Look up and you'll see the sunshine, so high above  
It's goodbye to darkness and welcome back to love  
Every yesterday it was a nightmare for someone  
The days they count are coming and the best ones have begun

Yesterday's gone, yesterday's gone  
Why think about it when the words we said were wrong?  
Yesterday's gone, yesterday's gone  
Meet the world together, let's go out and have some fun

Stay awake to watch the darkness slowly disappear  
Slept through the dawn and in the morning you came in  
Now I'm simply captured by the beauty of the day  
Sun has been shining ever since you came this way

Yesterday's gone, yesterday's gone  
Why think about it when the words we said were wrong?  
Yesterday's gone, yesterday's gone  
Go outside and see the world is living on  
Yesterday's gone, yesterday's gone

Yesterday's gone  
Yesterday's gone  
Yesterday's gone  
Yesterday's gone
