

Blow

LP

You wanna be rescued, wanna be the best you, why
Do you love when they test you? Think they gonna get you high
Are you ready for the weather? Keepin' it together, woah-oh-oh
You hope it gets better, summer in December, oh-oh-oh

Let the cold winds blow
You left me buried in the snow
You always dance with me then cancel me, I'm so alone
Shadow box my soul
Tryin' to let you go
So if you care for me, be there for me and go on home
Let the cold winds blow, oh, oh
Let the cold winds blow, oh, oh
Let the cold winds blow, oh, oh, oh

Oh, you get so lovestoned, caught up in a cyclone, got you so low
(So tell me)
Are you prepared for a storm that's gonna scare your ghost?

Let the cold winds blow
You left me buried in the snow
You always dance with me then cancel me, I'm so alone
Shadow box my soul
Tryin' to let you go
So if you care for me, be there for me and go on home
Let the cold winds blow, oh, oh
Let the cold winds blow, oh, oh
Let the cold winds blow, oh, oh, oh

Let the cold winds blow
Let the cold winds blow
Let the cold winds blow
