

Dead Town

LP

I see your ghost
Tell me what you feel, feel, feel
Did that door close
And was it real, real, real

Oh, just behind the looking glass
Bottles breaking on my path
People staring at me all the time
Oh, sending shivers down my spine
Bodies aching in decline
Just a little poison in my mind

I let this dead town
Swallow me down
Dead town
Dead town
She left me out
Let me get drowned
Drop down
Drop down

I'm letting go
Follow me close, close, close
I'm all alone
Carry me home, home, home

Oh, just behind the looking glass
Bottles breaking on my path
People staring at me all the time
Oh, sending shivers down my spine
Bodies aching in decline
Just a little poison in my mind

I let this dead town
Swallow me down
Dead town
Dead town
She left me out
Let me get drowned
Drop down
Drop down
