LP

Dreamcatcher  
I can see you waving  
In the night alone  
Slow winter  
And I feel I might get  
Left out in the cold

Ooh and I died today  
A little inside  
And I can see you waiting  
For your chance to go

Dreamcatcher  
When we're lying in our bed  
We're so in flight  
Slow dancer  
I been leanin' on you  
Trying to catch some light

Ooh baby take away  
This nightmare that stays awake  
And I fear we're  
In a maze of our design

Dreamcatcher  
I can see you  
With your eyes so far away  
No answer  
From the mystical  
To took back our yesterday

A feather of destiny  
Finding its way to me  
Like a willow  
On the wind that cannot stay  
That cannot stay  
That cannot stay
