

Lost In The World

LP

The beautiful night and the cities of light
You know they're priceless
Millions of miles we've travelled
The lifetimes are all inside us

Oh...

We get lost in the world

No view at all, but I've got my sights set way up high now
Steadily down from the top of the nearest mountain side and

Oh...

We get lost in the world

Not gonna give it up
Give it up
Give up to learn to live in a place called tomorrow
Not gonna give it up
Give it up
Give up to learn to live in a place called tomorrow

Call a parade and then ticker tape can fall forever
It's all a charade 'til the wind blows your name
And you stand up, stand up

And oh...

We get lost in the world

And oh...

We get lost in the world

Not gonna give it up
Give it up
Give up to learn to live in a place called tomorrow
Not gonna give it up
Give it up
Give up to learn to live in a place called tomorrow

Not gonna give it up
Give it up
Give up to learn to live in a place called tomorrow
Not gonna give it up
Give it up
Give up to learn to live in a place called tomorrow

(Live in a place called tomorrow)
(Live in a place called tomorrow)
