

Love Lines

LP

Don't go chasing
Don't go changing
Don't go losing your mind
We're not fading
We're just waiting
Save a place in your mind

Falling in love lines
Falling in love lines

Midnight dancer
Moonage daydream
Takes my mind off the plate
I'll surrender to the feeling
Leave it all up to fate

Falling in love lines
Falling in love lines
I just wanna spend time
Falling in love lines

All of these stories
And all of these mornings
All of the things that you say
It could never get boring
Wish I was recording
The way that you love me today

Falling in love lines
Falling in love lines
It never ends
I'm falling in love lines

Falling in love lines
Falling in love lines
Falling in love lines

Falling in love lines
