

## Old Days

LP

Honey  
I can tell that you're sorry  
But it's part of the story  
A tale that's older than time  
Baby  
I guess I just worry  
All the lines get so blurry  
Can we order more wine?

Oh, I miss the days  
When everybody kept it close  
When nobody had to know  
Cause it only hurts me so

Hold me  
Take me in your arms  
Like it was the old days  
When we were in love  
You should have told me  
When you hit the gun  
Just like in the old days  
When I was the one

The old me  
Would have let you control me  
But it's not like you own me  
It's a matter of mind  
I'll come over  
Like a good little soldier  
There's no use getting colder  
There's no wrong and no right

Oh, I miss the days  
When everybody kept it close  
When nobody had to know  
Cause it only hurts me so

Hold me  
Take me in your arms  
Like it was the old days  
When we were in love  
You should have told me  
When you hit the gun  
Just like in the old days  
When I was the one

Oh, I miss the days  
When everybody kept it close  
When nobody had to know  
Cause it only hurts me so

Hold me  
Take me in your arms  
Like it was the old days  
When we were in love  
You should have told me  
When you hit the gun

Just like in the old days  
When I was the one
