

## Special

LP

Yeah, the money and the fame  
Is all bullshit in the end  
But you know that there's more gain  
If you let it win  
I feel so sorry for myself  
For it meanin' nothin' else  
But when I lost you, it was hell  
And Rome just fell

One in a million, apart from the crowd  
When I think of you now  
It's like callin' a cloud special  
One and the only, don't leave me lonely  
You know what we had  
You know it was always special

Baby, all your lovin'  
All your lovin', all your lovin'  
All your love is so special, special

We've gone to Mexico, L.A  
Gone to heaven for some days  
People try to guess the ways  
That we could go  
Is it a lesson, is it a curse?  
Makes me think of things much worse  
But I remember you the way  
That we rehearsed

One in a million, apart from the crowd  
When I think of you now  
It's like callin' a cloud special  
One and the only, don't leave me lonely  
You know what we had  
You know it was always special

All your lovin'  
All your lovin', all your lovin'  
All your love is so special, special  
Baby, all your lovin'  
All your lovin', all your lovin'  
All your love is so special, special (special), special (special)  
(All your lovin')

All your lovin'  
All your lovin', All your lovin'  
All your love is so special, special (all your lovin')

Baby, all your lovin'  
All your lovin', all your lovin'  
All your love is so special, special, special (all your lovin')  
(All your lovin')

Ooh
