

I could be your North Star
I could be the love of your life
I could warm your cold heart
I could walk the edge of your knife

And when you think you're so high
I can always take you higher
You never can be too high
Fuck it, baby, let's go higher

Every time I say, "I'm sorry"
I never wanna fight again
I never wanna hurt you, honey
Remember when we were just friends?

So, let me go wild
I wanna float, I wanna fly
My inner child
I only need it to survive
Let me go wild
I gotta flow, I gotta fly
Let me go wild
We're only running out of time
Out of time, oh, oh, oh
Time, time, time, oh, oh, oh

I could be your quick fix
I could be the catch for your fall
And when you need to get kicks
I can give the best of them all

'Cause every time I say, "I'm sorry"
I never wanna fight again
And even if we end our story
Everything is just pretend

So, let me go wild
I wanna float, I wanna fly
My inner child
I only need it to survive
Let me go wild
I gotta flow, I gotta fly
Let me go wild
We're only running out of time
Out of time, oh, oh, oh
Time, time, time, oh, oh, oh

Let me go wild (Out of time, oh, oh, oh)
Let me go wild (Time, time, time, oh, oh, oh)
Let me go wild (Out of time, oh, oh, oh)
Let me go wild (Time, time, time, oh, oh, oh)
