

Forgiveness

L.S. Dunes

Onward we dig
Towards a place where you're whole again
Fool me into dancing on the ledge
Could you talk to me like how you always did?
I sleep better knowing everyone's at home
I sound perfect when I'm singing all alone

With all our heart
We beg forgiveness
For everything we ever said and everything we made
A vicious crime
Beyond the gaslight
Will keep on pushing on and on until the memory's dead

One by one, our blessings became more obvious and clear
Piece by piece, it all came apart, surrender the end of the year
I'll drive west only half of the way, I'll meet you in New Orleans
Where the memory is dead

With all our heart
We beg forgiveness
For everything we ever said and everything we made
A vicious crime
Beyond the gaslight
Will keep on pushing on and on until the memory's dead

A light like this
A light like this tonight
A light like this tonight
A light like this

With all our heart
We beg forgiveness
For everything we ever said and everything we made
A vicious crime
Beyond the gaslight
Will keep on pushing on and on until the memory's dead

Fool me into trusting you again
Days our distance felt so small, it felt so thin
Don't stop loving me the way you did back then
