

Holograms

L.S. Dunes

Who shall we follow?
Be not afraid
Love me, depleted
Sugar rot

I'm the narration of this fairytale
Lock me in the center of your wishing well
I'll be the mirror, commit me not
Benign, admit you lost it

Un-grasp your fingers from mine
You're gonna hate the way it ends
I love you, but I have to leave
I know this
I hope you don't forget me
You will fight the feelings when
Oh god, please don't forget me
The more I try to keep it level
More you have to go on adding weight
I hope you don't forget me
You will hate the way it ends
Oh god, please don't forget me

Wash
Double cross
Take me there
Take me

I'm the narration of this fairytale
Lock me in the center of your wishing well
I'll be the mirror, commit me not
Benign, admit you faked it

Un-grasp your fingers from mine
You're gonna hate the way it ends
I love you, but I have to leave
I know this
I hope you don't forget me
You will fight the feelings when
Oh god, please don't forget me
The more I try to keep it level
More you have to go on adding weight
I hope you don't forget me
You will hate the way it ends
Oh god, please don't forget me

And the feeling was all we had
But you gave up
And the feeling was all we had to save
And the feeling was all we had
But you gave up
And the feeling was all we had to save
And the feeling was all we had
But you gave up
And the feeling was all we had to save
And the feeling was all we had
But you gave up

And the feeling was all we had to save
