Together Forever

L.T.D.

Live your whole life lookin' for somebody
We're all lookin' for that special kinda love
I think you are the one for me
Our love is strong like L.T.D.
And I think that's
Just how happy we can be

Let's live our life together forever
Hey girl, you make me feel so good
Baby, I really wish we could
Could really get it all together
Let's fall in love

Every time I know I'll be around you
I just seem to fall to pieces all inside
You're so much better than the rest
I know our love will stand the test
Can't you feel what we will share will be the best

Let's live our life together forever
Through toil and strife together forever
Hey girl, you really start my day
You know the right things to say
Feel like I'm blessed from above
Let's fall in love

Baby, please don't turn me down
If you feel these things I'm feelin'
Let me know
Cause my love just can't wait
Think I'd like to set the date
'Cause this feelin' that I'm feelin' sure is great

Let's live our life together forever
Through toil and strife together forever
Hey girl, you make me feel so good, yeah
Hey baby, I really wish we could, yeah
Could really get it all
Together hey let's fall in love
Hey girl, you really start my day
You know the right things to say
Feel like I'm blessed from above
Let's fall in love

Live your whole life lookin' for somebody
We're all lookin' for that special kinda love
I think you are the one for me
Our love is strong like L.T.D.
And I think that's just how happy we can be
Let's live our life together forever
