

Rinse And Repeat

Luca Brasi

Been a hell of a mess
Been a fucking trainwreck
Been all those things I said I would never be
Been a hell of a mess
Been a fucking trainwreck
Just another failure to celebrate

Watch me stumble, watch me fall
Watch me stumble as I turn the corner

Brightest lights in the club
Fading lights in the bar
See this man giving up
Nothing here gets you far
Brightest light's not enough
Forget what you've done
Need a flash from above
This man falls apart

Time for less of the shit
Just say how it is
Time to clean up the mess I've been making
Time for less of the shit
Just say how it is
Make good on the deals that I've been breaking

Watch me stumble, watch me fall
Watch me stumble as I turn the corner

Brightest lights in the club
Fading lights in the bar
See this man giving up
Nothing here gets you far
Brightest light's not enough
To forget what you've done
Need a flash from above
This man falls apart

You breathe out
You breathe in
You rinse and repeat
And come back again
You breathe out
You breathe in
You rinse and repeat
And come back again

Brightest lights in the club
Fading lights in the bar
See this man giving up
Nothing here gets you far
Brightest light's not enough
To forget what you've done
Need a flash from above
This man falls apart

You breathe out

You breathe in
You rinse and repeat
And come back again
You breathe out
You breathe in
You rinse and repeat
And come back again
