

How Can You

Luca Hänni

Let's go

Do you remember when we were young?
A little crazy, a little crazy
We could surrender to life as it was
We were dreaming, we were dreaming, hey

I don't want [?] everything that comes to mind
Is filled with negatives all the time
All your lying got me betrayed, but okay

How can you still in my face
After you have played with my trust?
But i know that you make stronger
'Cause i know i don't need no longer
How can you still in my face
After you have played with my trust?
But i know that you make stronger
'Cause i know i don't need no longer

We took a journey onto the road
But you played me, but you played me for a fool
I'm making the right turn away from you
And all your stories, they're getting boring, mmh

I don't want [?] everything that comes to mind
Is filled with negatives all the time
All your lying got me betrayed, but okay

How can you still in my face
After you have played with my trust?
But i know that you make me stronger
'Cause i know i don't need no longer
How can you still in my face
After you have played with my trust?
But i know that you make me stronger
'Cause i know i don't need no longer, yeah

We took a journey onto the road
But you played me, but you played me for a fool
I'm making the right turn away from you
And all your stories, they're getting boring, mmh

It's because you
It's because you
Yes, you
Why you act like a fool?

How can you still in my face
After you have played with my trust?
But i know that you make me stronger
'Cause i know i don't need no longer
How can you still in my face
After you have played with my trust?
But i know that you make me stronger
'Cause i know i don't need no longer, yeah

Yeah, i know that you make me stronger
'Cause i know i don't need no longer
Oh, no no, yeah
Yeah, i know that you make me stronger
'Cause i know i don't need no longer, yeah
Yeah, yeah
Yeah, yeah
