

# Another Life

Lucas & Steve

When you walk away, the quiet is so loud  
I'm counting the days and hoping you'll come around  
And I see your face wherever I go  
Haunting me like a ghost  
Oh, you never fade and I cannot cut you out

I tell myself that this is not the end

Maybe in another life, we could be lovers  
We'd have each other  
We'll be one, just for tonight  
Pretend it's forever  
When we're together, baby  
Feels like we're dreaming and everything's right  
Wish you weren't gone by the end of the night  
In another life, we will be lovers  
We will be lovers, baby

Look up to the sky and wait for a shooting star  
I wish you were mine and we never fell apart  
And sometimes I wish that we never met  
It'd be easier here without you  
I tell myself that this is not the end

I tell myself that this is not the end

Maybe in another life, we could be lovers  
We'd have each other  
We'll be one, just for tonight  
Pretend it's forever  
When we're together, baby  
Feels like we're dreaming and everything's right  
Wish you weren't gone by the end of the night  
In another life, we will be lovers  
We will be lovers, baby

In another life, we will be lovers  
We will be lovers, baby
