

# Glory

Lucas & Steve

We've had some dark nights  
Troubles blowing in the wind  
I know, I know, I know, I know, I know  
I can make sense of anything  
We've had some hard times  
Nothing makes my soul sane  
I know, I know, I know, I know, I know  
The time is always everything

If you ever love somebody  
Who doesn't love you back  
It kinda feels like that

In a room full of strangers  
When you're feeling lonely  
Reach out and hold me  
I will be there  
When your heart's full of danger  
You know you can call me  
We'll find that glory  
I will be there  
We'll find that glory  
I will be there

I will be there  
I will be there

Are we losing our minds?  
I know I can never win  
Oh I won't, I won't, I won't, I won't  
Take the love you wanna bring

Have you ever held somebody  
Who doesn't hold you back?  
It kinda feels like that

In a room full of strangers  
When you're feeling lonely  
Reach out and hold me  
I will be there  
When your heart's full of danger  
You know you can call me  
We'll find that glory  
I will be there  
I'll find that glory, glory, glory  
I will be there

I will be there  
I will be there

When your heart's full of danger  
You know you can call me  
We'll find that glory  
And I will be there  
I'll be there

I will be there

I will be there

When your heart's full of danger  
You know you can call me  
We'll find that glory  
And I will be there  
I'll be there

Glory, glory, glory  
I will be there
