

Help Me Remember

Lucas & Steve

You stay in alone
I'm out of my secrets
But I loved being home with you
My eyes got cold
You said they were different
How did I end up here with you?

Saying things I didn't mean
But still I can't go take them back
Now we're caught up in these problems

Help me
To see all the things that ain't me
I forgot about
Baby, I don't wanna let go
Take me
Back to the place, yeah when we
Knew who we were
I don't wanna forget about us
So help me remember
Help me

Trying so hard
To feel what it felt like
When the best part of me was you
It's like I forgot
How to be grateful
Grateful for us, cause I'm not

Saying things I didn't mean
But still I can't go, take them back
Now we're caught up in these problems

Help me
To see all the things that ain't me
I forgot about
Baby, I don't wanna let go
Take me
Back to the place, yeah when we
Knew who we were
I don't wanna forget about us
So help me remember
Help me
So help me remember

So help me remember
So help me remember
Help me remember
