

# Magnets

Lucas & Steve

We woke up  
Strangers in the bed  
Unfamiliar eyes  
And brand new faces  
I want you  
But there's no need to be ashamed  
If you don't remember my name  
That's fine

Yeah  
Honestly when you asked for lightin'  
Said, you look like you're in need of fire  
Need a fire  
I do it all alone, we will get it on  
'Cause we both are burning with desire

Found you in the corner  
Looked a bit lost but so alive  
We could be perfect for tonight  
Lean on your shoulder  
Kiss on the liquor from your lips  
Fooling around in life like a kids  
Like a magnets, you pull me in  
And we begin

We were dancing  
Is like you knew me by the way  
Took a taxi back to your place  
All bored

Yeah  
Honestly when you asked for lightin'  
Said, you look like you're in need of fire  
Need a fire  
I do it all alone, we will get it on  
'Cause we both are burning with desire

Found you in the corner  
Looked a bit lost but so alive  
We could be perfect for tonight  
Lean on your shoulder  
Kiss on the liquor from your lips  
Fooling around in life like a kids  
Like a magnets, you pull me in  
And we begin
