

# When I Wake Up

Lucas & Steve

When I wake up, my head is pounding  
Try to forget what I said, what I did last night  
Call me stupid, call me crazy  
But I'ma do it all again

I just wanna get that feeling  
Dancing round in ecstasy  
Every night I fly away from my anxiety

When I wake up, my head is pounding  
Try to forget what I said, what I did last night  
Call me stupid, call me crazy  
But I'ma do it all again

So what if I go out every night  
Dancing on the tables doing nothing right  
So what if I get a little high  
I just wanna go and live my best life

You can bury me up in the mountains  
If I die tonight  
My anxiety's trying to kill me  
But I will make it out alive

When I wake up, my head is pounding  
Try to forget what I said, what I did last night  
Call me stupid, call me crazy  
But I'ma do it all again

When I wake up, my head is pounding  
Try to forget what I said, what I did last night  
Call me stupid, call me crazy  
But I'ma do it all again
