

When You're Alone

Lucas & Steve

Loving you was better in my head
I need more than your body in my bed
I wanna feel it all
My temple and my soul
Loving you ain't giving me all that

But with you it's only black and white
Falling in love a pick and fight
Think I deserve a little peace of mind (Oh)
If I could do it all again
I'd never let you in my bed
So I wouldn't miss your body by my side

Do you
Think of me when you're alone
Hate it
Then think about me some more
Getting late wanna say that I know
That I'm on your mind
Crave it
Don't need your love in my life

(Do you
Think of me when you're alone)

You and me both know they are toxic
And it was blowing up my phone
So I blocked it

I got my brand new whip
I'mma get what I deserve
Remember what you had
'Cause you lost it

But with you it's only black and white
Falling in love a pick and fight
Think I deserve a little peace of mind (Oh)
If I could do it all again
I'd never let you in my bed
So I wouldn't miss your body by my side

Do you
Think of me when you're alone
Hate it
Then think about me some more
Getting late wanna say that I know
That I'm on your mind
Crave it
Don't need your love in my life

Do you
Think of me when you're alone
Hate it
Then think about me some more
Getting late wanna say that I know
That I'm on your mind
Crave it

Don't need your love in my life
Do you
Think of me when you're alone
