

Running Away

Luciano

I say you're running and you're running and you're running away
You're running and you're running and you're running away
You're running and you're running and you're running away

You're running and you're running
Can't run away from Jah Jah

Can't run away

Can't run away

Can't run away from yourself
You're running too long
