Falling in love

When you want to be my destiny
Just let me know it
When you want to be by my side
When we get to know each other well
I'd like to find out
What the future's like by your side

Wanna be your the only one Feeling free and taking what's to come Don't know better thing Than the fall into love

Find a place we both want to stay Sunny days with you - by the way Don't know better thing Than the fall into love

At the wedding day all bells will ring And tell that you're mine
I will always stay by your side
Then we want to add that kind of thing
The others don't have
Oh, I feel so safe by your side

Wanna be your the only one Feeling free and taking what's to come Don't know better thing Than the fall into love

Call for smile
Call for happiness
No more cry
No more loneliness
These things will come true
When you are by my side

Wanna be your the only one Feeling free and taking what's to come Don't know better thing Than the fall into love

Common way wanna live our lives I don't say we need miracles Don't know better thing Than the fall into love

Wanna be your the only one Feeling free, taking what's to come Don't know better thing Than the fall into love
