

# The Perfect Kiss

Lucie Vondráčková

I can't move  
When you say  
You want all of me

You're so smooth  
When you play  
No more hide and seek

I can barely breathe  
What's this power you have over me

Looking in your direction  
I know you're feeling something between us  
You are my obsession  
I'm in too deep, lost in a dream

Looking in your direction  
I know you're feeling something between us  
You are my obsession  
I'm in too deep, lost in a dream of

The perfect kiss  
The perfect kiss  
Could you be my  
Could you be my  
The perfect kiss  
The perfect kiss  
Falling into perfect bliss

I'm tongue tied  
Body loose  
But it feels right  
I don't need  
No excuse  
Cause I know you're mine

Say that you will stay  
That you haven't ever felt this way  
There's only one way to show me  
There's only one way to show me

Looking in your direction  
I know you're feeling something between us  
You are my obsession  
I'm in too deep, lost in a dream of

The perfect kiss  
The perfect kiss  
Could you be my  
Could you be my  
The perfect kiss  
The perfect kiss  
Falling into perfect bliss

There's only one way to show me  
There's only one way to show me  
Say that you will stay

Say that you will stay

Looking in your direction  
I know you're feeling something between us  
You are my obsession  
I'm in too deep, lost in a dream

Looking in your direction  
I know you're feeling something between us  
You are my obsession  
I'm in too deep, lost in a dream of

The perfect kiss  
The perfect kiss  
Could you be my  
Could you be my  
The perfect kiss  
The perfect kiss  
Falling into perfect bliss
