

## Closed Curtains

Lucifer's Friend

I've played the part of a travelling man  
Acting my part from the very first line  
But now I see, there's been a big change in me  
From today I know that the curtains are closed

I've read the stories of brotherhood  
Been around the world more than one time  
But now I see, there's been a big change in me  
But today I know that the curtains are closed

Oh feeling alright  
My wandering days are through  
I've had enough  
But I hang around

Oh we're getting uptight  
I know just what to do  
My time has time has come for getting on  
Yes, got to settle down

Oh feeling alright  
My wandering days are through  
I've had enough  
But I hang around

Oh we're getting uptight  
I know just what to do  
My time has time has come for getting on  
Yes, got to settle down

Drunk from the cup of Satan's blood  
Worked 'til my hands could take no more  
Up in the clouds, for the whole world to see  
But today I know that the curtains are closed  
Looked over hills 'til my eyes got weak  
Sand 'til my song began to tire  
But now I see, there's been a big change in me  
And today I know that the curtains are closed

Oh feeling alright  
My wandering days are through  
I've had enough  
But I hang around

Oh we're getting uptight  
I know just what to do  
My time has time has come for getting on  
Yes, got to settle down

Oh feeling alright  
My wandering days are through  
I've had enough  
But I hang around

Oh we're getting uptight  
I know just what to do  
My time has time has come for getting on

Yes, got to settle down
