

Gold Rush

Lucius

Heart of gold, heart in a cast
Happy times, times when we're sad
I'll never leave, I'll never leave
Strong in mind, weak in the knees
Easy go, so hard to please
I'll never leave, I'll never leave

(Gold rush)

(Gold rush)

No such luck, too much to prove
So much love, too much to lose
I'll never leave, I'll never leave
Ask me why, leave me alone
Push and pull, feels right at home
I'll never leave, I'll never leave
I'll never leave, I'll never leave

(Gold rush)

(Gold rush)

Sugar rushes, honey, it's high and low
You've got something sweeter than liquid gold

(Gold rush)

(Gold rush)

'Til the end, right from the start
Act your age, stay young at heart
I'll never leave, I'll never leave
You and me, paving the way
Dreams come true, or the mundane
I wanna see, I wanna see
I'll never leave, I'll never leave

Sugar rushes, honey, it's high and low
You've got something sweeter than liquid gold

Sugar rushes, honey, it's high and low
You've got something sweeter than liquid gold
Sugar rushes, honey, it's high and low
You've got something sweeter than liquid gold
